

**Instructional guide for Leather Colour Conditioner Application:**

**Materials:**

1. Colour conditioner for leather
2. Foam applicator (included)
3. Protective gloves
4. Clean white cloth
5. 1 fresh lemon
6. 1.5 litres lukewarm water

**Instructions:**

**Pre-cleaning:**

1. Wash the leather item: Dilute lemon juice with lukewarm water. Using a clean cloth, gently wipe the leather to remove dirt, dust, and oils.
2. Dry completely: Allow the leather to air dry naturally.

**Applying Colour Conditioner:**

1. Wear gloves: This product can stain your hands.
2. Prep the conditioner: Shake the container well. Dab the foam applicator onto the lid to gather the colour dye.
3. Apply small amounts: Spread the conditioner evenly in thin layers. Avoid applying large quantities at once, especially on dry leather, as it can create uneven patches.
4. Cover all areas: Apply the conditioner to all surfaces of the leather item, paying extra attention to faded sections.
5. Touch-up and dry: After the initial application, go over the faded areas again for extra coverage. Allow the conditioner to dry completely.
6. White cloth test: Rub a clean white cloth over the leather. If no colour transfers, the conditioner is absorbed and sealed.

**Post-application care:**

1. Conditioning: For ongoing leather care, apply plain Conditioning Cream every 4-6 months.
2. Colour retreatment (optional): If desired, you can repeat the colour treatment every 4 months until satisfied with the colour. After achieving the desired colour, stick to regular conditioning.

**Storage:**

1. Store the colour conditioner in a cool place. Avoid storing it in hot temperatures as it can cause separation.

**Additional tips:**

1. Test the colour conditioner on a small inconspicuous area of the leather before applying it to the entire item.
2. Apply the conditioner in a well-ventilated area.
3. Do not use this product on suede or other delicate leathers.

We hope these instructions help you achieve beautiful and long-lasting results with your leather items!

**Regards,**
